

Eternal Goo or God?

Introduction

Most people do not get very excited about a foundation.

I guarantee you I could build your next building for at least 1/3 the cost. The way I would do it is to leave out the foundation. Of course you would not let me do it but Christians are doing such all across the world when they do not give due import to Genesis 1-11.

While they do not get excited about a foundation, they do get excited about the effects of a bad one.

The foundation of all foundations to Christianity is Genesis 1-11. Its contents can be summarized as follow: Creation, Corruption, Confusion, Catastrophe and Correction.

The structure of your faith is no better than your grasp of these chapters.

I. Bedrock Level of the Foundation of the World – Genesis 1-2

Genesis 1 is a masterful document that says so much in so few words. It so clearly anticipates the idea of theistic evolution (that view that God used evolution to create the world) and refutes it repeatedly with immediacy of tone, the restriction of each kind to itself, and the fully functional nature of creation once it was in place – not with the appearance of age (tree rings, etc.) but in sufficiently developed state to be fully operational.

If Adam was not real but just allegorical than sin is such and Christ cannot be the replacement Adam the New Testament says He was and the Gospel requires Him to be.

SEE: I Corinthians 15:21-22, 45; Romans 5:12, 19-20

If creation is no big deal then why are do the public school system work so hard to keep it out! They understand the serious of the matter! They understand the ramifications!

II. Ground Work Level of the Fall of Man – Genesis 3-5

The entrance of sin which not only had immediate affect on Adam but gave Satan an inroad into the heart of man that can only be broken by regeneration of a new nature in salvation.

If Adam sinned in a point of history, and he did, then Christ would have die for that sin in a point of history, and He did.

III. Rebar of the Flood of the Whole Earth – Genesis 6-9

Genesis 1:31 with Romans 8:22.

Today's world bears witness, in the form of scars, sores and sicknesses to the worldwide flood event of Noah's day.

By scars is meant: canyons, caves, craters, etc.

By sores is meant: earthquakes, hurricanes, tornadoes, volcanoes, geysers, etc.

By sicknesses is meant: blizzards, droughts, floods, hail, etc.

IV. Beams of the Fragmentation of Society – Genesis 10-11

The tower of Babel event occurred some 100 years after the flood event.

The 70 family groups cited in Genesis 10 match up with the 70 language groups that linguists see as the basis for all of today's languages.

As these family groups separated themselves and isolated themselves from each other, genetic features became increasingly characteristic of each group. This is the origin of the supposed races!

Evolutionary concepts promote racism while the Bible repeatedly emphasizes, history bears out and geneticists are increasingly discovering that all men have a common ancestor!

Acts 17:26!

V. Concrete of the Family of Abraham, Isaac and Jacob – Genesis 11ff

Moses wrote the Book of Genesis in order to reorient the Jews to these above five points! Having been in Egypt around 400 years, they had began to adopt their world view.

NOTE: Ezekiel 20:5-10ff.

Conclusion

All clear thinking people should yield no ground to the validity of not only the Bible but especially Genesis 1-11.

Even the Gospel was promised, previewed and presented in these early chapters in numerous ways! Genesis 3:15; 21; 4:4; 6:14, 7:2, 8:20; 8:4, and so forth.

Genesis 3:15 – Offspring of woman. Virgin Conception. Male. Suffer. Victorious over the Devil.
